

Health and safety policy Statement

Health and safety at Work etc Act 1974

This is the Health and Safety Policy Sta...

Who is this for?

This qualification is typically delivered over 3 days.

It is intended for those that need to take on more of a health and safety role, particularly supervisors, as they are responsible for the health and safety of those that they supervise.

This qualification is also useful for those with occupational competence that want to teach level 1 and 2 health and safety courses.

Key points

- Regulated qualification
- Written to National occupational standards
- 18 Guided learning hours (3 days)
- Recommended to be refreshed every 3 years
- Certificate included
- Assessed by MCQs

Course content

This qualification has been developed to provide an in-depth view to health and safety within the workplace; particularly aimed at middle management.

- Health and safety legislation
- Responsibilities of employers and employees
- Communicating Health and Safety information
- Costs and impact of poor health and safety
- Health and safety management systems
- Common workplace hazards and controls
- Principles of risk assessment
- Workplace requirements
- Accident reporting and investigation
- Accident and incidents procedures

The content has been written to meet accepted guidelines. The delivery will be tailored to the needs of the employer.

Learners may also wish to attend the QNUK Level 3 Award in Workplace Risk Assessment (RQF)
